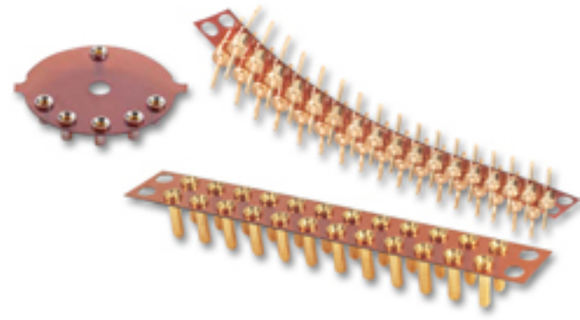
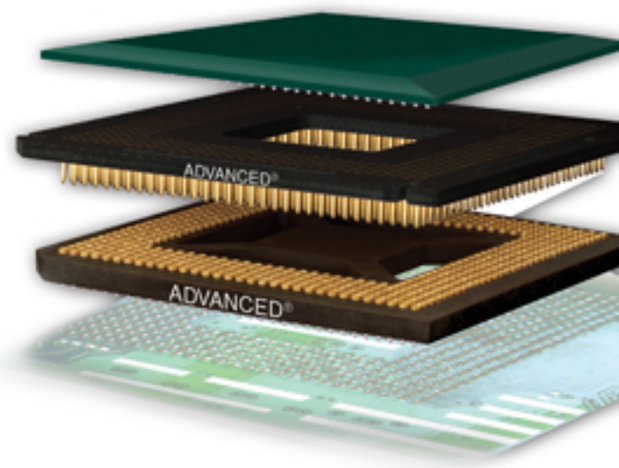
ADVANCED INTERFACE



Mission Statement

The mission of Advanced Interconnections Corp. is to partner with our worldwide customers to provide innovative electronic interconnect solutions. We design products with superior reliability and technologically advanced features, customized to solve difficult design problems.

That's the Advanced® Difference.

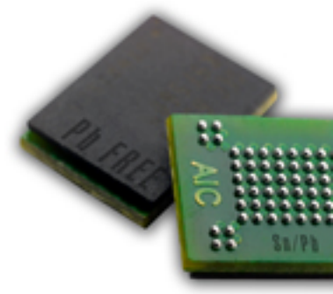


Quality Policy

Our quality policy is founded on three guiding principles.

Consistency

Employees are trained and audited to ensure conformance to our procedures, standards, and published specifications.

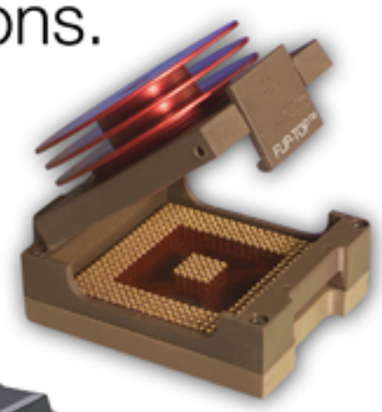


Communication

Effective communication with customers, suppliers, and employees ensures that requirements are fully understood and goals are met.

Continuous Improvement

Advanced is dedicated to improving our products and service through innovation to continuously meet or exceed our customers' expectations.



ADVANCED INTERCONNECTIONS®
